

## Over The Midland Terminal Railroad THROUGH CRIPPLE CREEK DISTRICT

LENGTH, 360 FEET

PRICE, \$39.60

This Film shows a beautiful train ride. The scenery is vivid throughout. Our panorama shows all the important mines and cities. On our right we see boys skating while in the background we see Independence, the City where Harry Orchard blew up the fourteen nonunion miners.

Far in the distance many miles away we see the mountain range of Sangre De Cristo.

The trains go still further through a beautiful mountain region. We see the towns of Elton and Anacondack and many others.

This is an exceedingly good railroad panorama and is highly interesting from start to finish.

## Through "Yellowstone Park"

LENGTH, 145 FEET

PRICE, \$15.65

This is a film of rare beauty. It begins with a panoramic view of the "Mammoth Hot Springs," passing to the "Devil Fire Hole." We have a panoramic view of the "Yellowstone Falls" (305 feet high) and of "The Canyon" (1200 feet deep). Next we get "A close view of the falls" pass on to the "Giant Geyser Crater," a most beautiful sight. Senator Miles of Montana "Feeding the Elk" and "A Herd of Buffalos" finish this excellent film. And all this is only 145 feet.

**S. LUBIN**

Largest Manufacturer of

Life Motion Picture Machines,  
Films, Slides and Stereopticons

19-21 South Eighth Street : PHILADELPHIA,  
PENNA., U. S. A.

1. We sell for cash only.  
2. Goods are not sold on time.  
3. In ordering the best way is to send Postoffice or Express Money Order for the full amount. You also may send Bank Draft which can be obtained at any bank.

4. Goods can be shipped either by Express or Freight, but where machines are wanted in limited time we would advise that shipments go by Express. It is the quickest mode of transportation and if sent by freight the time lost in transit would cause a much greater loss than the additional cost of the express over the freight rate.

5. If you do not care to send us the full amount with your order, you can deposit the money with your express agent and have him write or telegraph us to that effect, and we will ship your order the same as we would if the full amount was in our hands.

6. We forward goods C. O. D. only upon receipt of one-half the amount of the original order as guarantee of good faith. Customers can save return charges on C. O. D. shipments by sending full remittance with their orders.

7. If desired, we ship goods with the Privilege of Examination in the Express Office.

8. Goods to be sent by mail will be forwarded only when accompanied by cash in full.

9. If immediate shipment is required do not send Personal Checks, but Money Order or Draft only.

10. Be careful to give full address and to state line or Express Company by which shipment should be made.

11. If further information is desired we will be pleased to write in greater detail upon request, therefore do not hesitate in making your wants known to us.

12. We manufacture not only the world renowned Cineograph with Stereopticon Combined but also Films, Stereopticon Slides, in short, everything pertaining to the Life Motion Picture Business.

#### FOREIGN SHIPMENTS

1. It is necessary that the full amount accompany all orders from Foreign Countries, or the order can be placed through any of the responsible New York Export Houses to whom you can send the money, with instructions to pass same to us on receipt of bill or shipping documents.

2. Orders can be forwarded by cablegram and the money sent at the same time by mail, and by the time the funds reach us the goods will be ready for immediate shipment.

#### GUARANTEE AND WARRANTY

1. We guarantee every Machine of our manufacture and while our line embraces a great number of various styles and prices, we make but one grade, that is, the best.

2. Each and every Machine that leaves our factory bears the stamp of Durability and perfect Mechanism. It matters not whether it is our lowest or highest priced machine, you are sure of getting your full money's worth. Every Machine is guaranteed to give perfect Satisfaction and every part is warranted to be made of the very best Materials.

**Moving Picture  
Projecting Lenses**

All our Machines are equipped with Moving Picture Lenses made by the Bausch & Lomb Opt. Co. of Rochester, N. Y., stamped with their address and specially made for us.

It is well known that the Bausch & Lomb Opt. Co. are the largest Lens Manufacturers in the world. Their Lenses are guaranteed to give best results.

The Middle Distance Lens will project a picture approximately 12 x 14 at 50 feet distance.

The Long Distance Lens will give about half the size picture at the same distance while the Wide Angle Lens will give half a size larger picture at the same distance. At a longer range or shorter range pictures are larger or smaller, according to the lens and distance.

Film Repairer, Made of Solid Brass, Nickeled.  
11 oz.

#### DIRECTIONS.

Cut the Film about  $\frac{1}{4}$  inch from LOWER line of one of the pictures, see Fig. 1, and lay the extreme TOP line of the picture. The  $\frac{1}{4}$  inch on the end of the Film is to be mended with the tongue the end on which the  $\frac{1}{4}$  inch has been left off the Emulsion to the line of the adjoining picture, with a pocket knife, see Fig. 1, Fig. 1, which should be about  $\frac{1}{4}$  inch long and is part of another picture, a portion has been scraped off. This is where the Cement should be placed.

Cement

Price, 15c per  
bottle.  
By Mail  
order.
